"G'DAY, I'M DOUGLASS!"

# FACTS

Did you know we create over 76 million tonnes of waste every year in Australia? That's massive! It's almost enough to fill more than 30,000 Olympic-size pools! But with your help, we can recycle a whole lot of that rubbish and stop it all going into landfill.

Ready to get started?

# LOOK ↓

## WHAT HAPPENS WHEN YOU RECYCLE RIGHT

Recycle your containers and they can come back to you as something **new**.

### PLASTIC

Plastic containers can come back as waterproof jackets or back packs.

### GLASS

Glass containers can be recycled into new bottles or material for building roads.

### ALUMINIUM

Cans can be recycled into aeroplane wings or bicycle parts.

I WANT TO COME BACK AS A BICYCLE!

76 million tonnes  
=  
30,000 Olympic-size pools

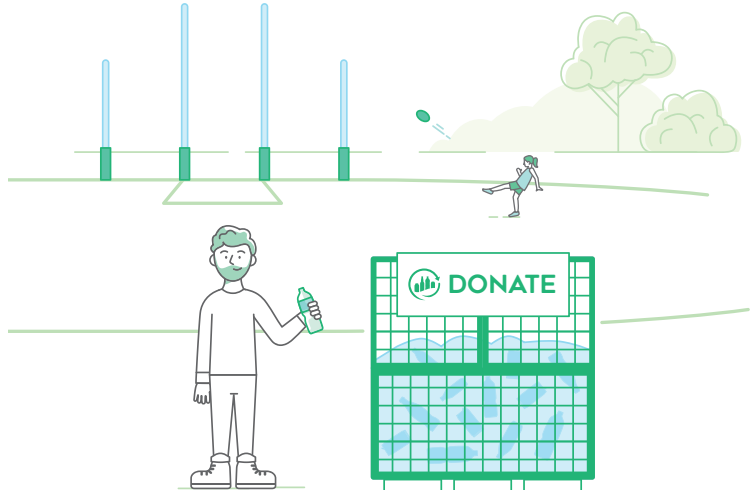

# MAKE YOUR CONTAINERS COUNT

Drop into your local refund point and get 10 cents for every eligible container.

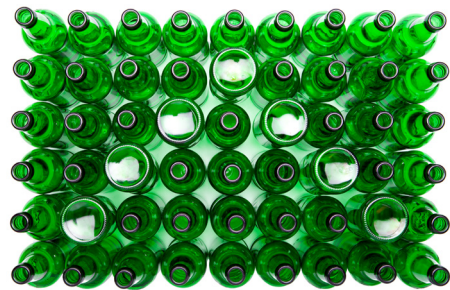

Save your pocket money for something special.

Or donate to a good cause.

## CONTAINER COUNT

Did you know eligible containers are worth 10 cents each! Try to count all the containers to see how much money you can make. Remember, every eligible container counts. What are you saving up for?

Answer on page 6

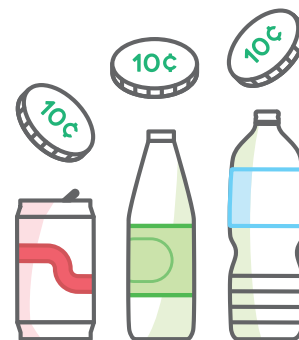

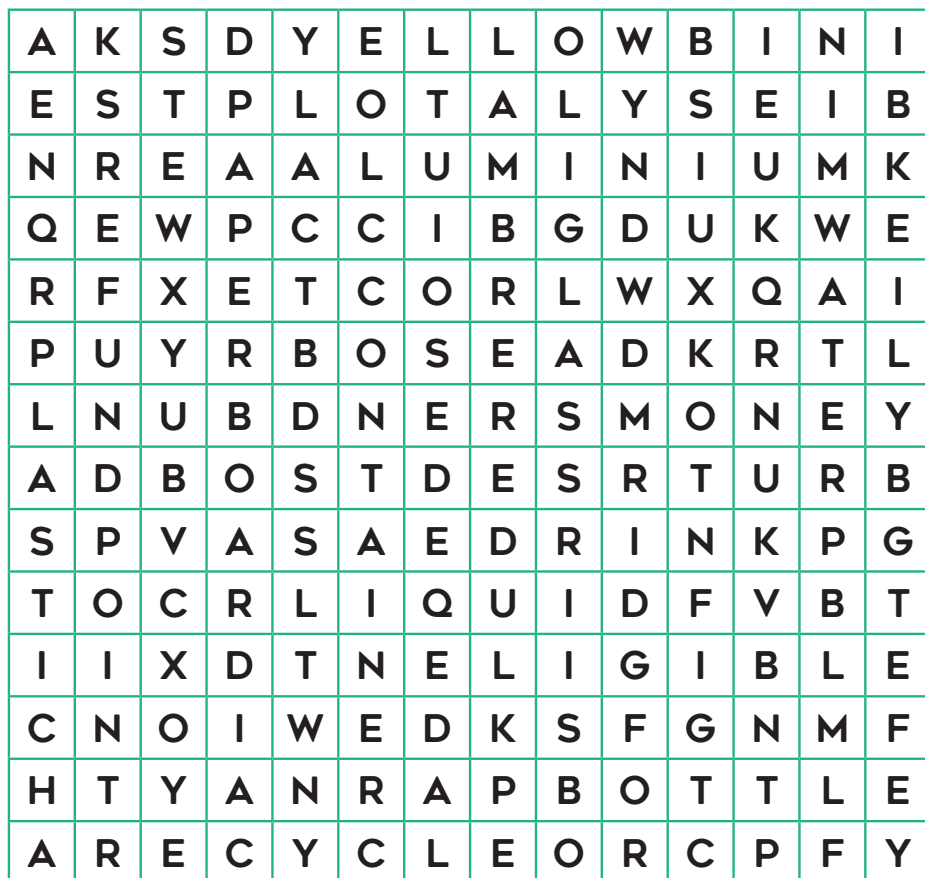

## RECYCLE AT HOME

If you can't get to a refund point, the next best thing is to make sure you put your recyclables loose in the recycling bin. Use the wrong bin, and you'll just add to that big pile of landfill.

# RECYCLE TALK

How many words do you know about recycling and **Containers for Change**? See how many you can find in the puzzle below.

MONEY

BOTTLE

## RECYCLING ROUNDAABOUT

Oh no! These containers are lost. Can you help them find their way to the recycling bin?

Q: WHAT HAS  
FOUR WHEELS  
& FLIES?

Answer on page 6

# SPOT THE DIFFERENCE

These pictures might look the same, but there are FIVE differences.

Can you spot them all?

## BEFORE AND AFTER

Your used containers can be recycled into all kinds of amazing new products.

Can you guess what these containers can come back as?

**Just draw a path from the container to the new product it can become after recycling.**

Dog bed

Chair

Window
